Heart Disease.

Read the hospital reports, read the mortuary reports, read the medical publications, read the daily newspapers and learn how wide-spread is heart disease, how difficult of detection it is to most people, how many and how sudden are the deaths it causes. Then read Dr. Flint's treatise on heart disease, and learn what it is, what causes it, what diseases it gives rise to, what its symptoms are and how it may be attacked. If you find that you have heart disease, ask your druggist for a bottle of Dr. Flint's Heart Remedy. The treatize may be had on applic tion.

Good Results in Every Case. D. A. Bradford, wholesale paper dealer of Chattanooga, Tenn., writes that he was seriously afflicted with a severe cold that settled on his lungs; had tried many remedies without benefit. Being induced to try Dr. King's New Discovery for consumption, did so and was entirely cured by use of a few bottles. Since which time he has used it in his family for all coughs and colds with best results. This is the experience of thousands whose lives have been saved by the Wonderful Discovery. Trial bottle free at S, J. Hodg-kinson & Co's Drug Store.

An End to Bone Scraping. Edward Shepherd, of Harrish says: "Having received so much benefit says: "Having received so much benefit from Electric Bitters, I feel it my duty to let suffering homanity know it. Have had a running sore on my leg for eight years; my decioratoid me I would have to have the bone se aped or leg amputatedr. I used, instead, three bottles of Electric Bitters and seven boxes Buck-len's Arnica Salve, and my leg is now sound and well." Electric Bitters are sold 150 cents a bottle, and Bucklen's Art.ica Salve at 25 cents per box by S. J. Hodgkinson & Co's.

The reason Why Acker's Blood Elixir is warranted, is because it is the best Blood Preparation known. It will positively cure all Blood Diseases, purifies the whole system, and thoroughly builds up the constitution. Remember, we guarantee it.

Should Skating Binks be Abolished? Henrico's Self-Sacrifice.

Hearico's Self-Sacrifice.

There is a great diversity of opinion abroad in the land in regard to the morality of the skating rink. Among its strongest oponents are clergymen, theatrical managers, and salcon and pool room keepers. One preacher goes so far as as to assert that "the rink is more deadly than the gambling hell." But that, of course, depends upon how hard the skater falls. It is seldom that a fall in the rink proves fatal, while it not infrequently happens that the man who loses his money in a gambling-hell blows out his brains, and nothing could be more "deadly" than that.

It is not our intention to either denounce or praise the rink. We merely present herewith a few facts, pro and con, which have been gleaned from the news of the day, and let our readers draw their own inference. The rink is responsible for the annexed paragraphs:

A married woman who was an invalid for years, and was given up by the doctors, became a frequenter of the rink, and in two months gained seventy-five pounds. She is now strong enough to grab her husband

seventy-five pounds. She is now strong enough to grab her husband by the collar and bump his head against the door-jamb when he opposes her wishes. Her husband says the rink is an institution for evil, and should be squelched.

After an acquaintance of six weeks, a poor but respectable young woman married a man to whom she was introduced at a roller skating rink. Instead of proving to be a worthless adventurer, he turned out to be a man of good sense, worth \$150,000. Her parents think the rink is a greater blessing than the church.

A man took his wife's mother to the rink, because, he said, it was a shame to leave her at home while he and his wife were enjoying themselves. Then he encouraged her to put on the skates, assuring her that there was not a particle of danger. She is now laid up with a broken leg, and her son in-law, who goes to the rink alone and skates with his young lady friends, says that if preachers were to put themselves in his place, they would not denounce the rink.

One night recently a young lady went to the rink, and on the same evening her more pious sister attended a prayer-meeting. About half-past eight o'clock a cold rain set in and continued all night. A young man with an umbrella escorted the rink-loving sister home. The prayer-meeting girl was obliged to return alone through the rain. She caught a heavy cold, and died two days later of pneumonia. All the young men and their umbrellas were at the rink; hence the new craze was the indirect cause of her death. The rink should go.

A married woman in Dashville became infatuated with roller skating; also with a roller skating "professor." She eloped with the latter, and her deserted husband mourns because the skating craze did not strike that town four years earlier.

A clergyman preached a powerful sermon against the skating rink, declaring that it was more harmful than the gambling den. On the following night the clergyman's son, who had intended to visit the rink, concluded, as a dutiful son should have done to obey his father, and o

The Popular Ballads of the Rebel-

The Popular Ballads of the Rebellion.

The writer par excellence of war ballads was Henry Clay Work, who died in June, 1884. To enumerate and comment on his pieces only would make an ordinary newspaper article. The titles alone would cover those that are most familiar, i. e.: After naming "Marching Through Georgia," "Kingdom Coming," "Babylton is Fallen," and "Wake, Nicodemus," let the reader propose to himself from other equally popular pieces during the war. Work himself wrote besides "Corporal Schnapps," "Brave Boys Are They," "Little Major," "Song of a Thousand Years," "Our Last Grand Camping Ground" and many other less known. Of all these "Marching Through Georgia" stands without a peer. It is the only one that has stood the test of years, and it is as readily recognized to-day as "Yankee Doodle." More than 400,000 copies of the song were sold by the publishers. It has been sung in every State in the Union. No Grand Army camp-fire is duly opened till the boys have fairly raised the roof with its resounding melody. I once saw Gen. Sherman himself attempt to sing the words with over 4,000 school children gathered to do him honor; but the magnitude of the scene, the impressiveness of the children's reverence, overcame him; his voice faltered, and with reddened eyes he passed through the crowded lines, grasping as many as he could of the eagerly outstretched hands.—[Cincinnati Enquirer.

The Art of Keeping Poor;

A man was asked how he managed to get so rich, and he said he never bought anything that he was not obliged to have, but our people reverse the rule, and buy most everything they are not obliged to have. This is the way we do at our house, and most everybody else that I know of. We have got rich folks' ways with a poor man's purse, and so we live on a strain. It is a curious circumstance in this life, that the folks who would be most liberal and charitable with their money haven't got any surplus to give away. Their very habits of free living and generosity keep them from accumulating.

[Bill Arp, in Atlanta Constitution A man was asked how he man

Painless Regulation. It is no longer a question of doubt-al though the contrary was once believedthat medicines which produce violent of ects are unsuited to other than despera lects are unsuited to other than desperate emergencies. In other words, that superpotent remedies are calculated to weaken and injure the system rather than reform its irregularities. Among medicines of deblitating effect are cathartics and cholagogues which copiously and abruptly evacuate the bowels. Because it does not do this, Hostetter's Stomach Bitters is preferable to the drenching class of puratives. Painless in its effects, it is sufficiently active to remedy chronic constipation. It relieves by invigorating the intestines, and enables, not iorces, them to perform the duty imposed upon them by nature. Premoting the secretion of ble in normal quantities by its healthfully stimulating effect upon the liver, it is eminently conductive to digestion, and contributes in no small degree to keep the bewels regular.

AUGUST 16, 1887

In the local columns is an aunouncement that there has been a consolidation of the WEEKLY GA-ZETTE and the Stockman. This is done for various reasons. To those who take both papers it will reduce the amount paid for subscription; it will give to both GAZETTE patrons and Stockman patrons a larger and better paper. The Stock-man is backed by all of the stockmen in Nevada, endorsed by those representing the leading industry of the State and probably \$20,000,-000. The GAZETTE is taken by ranchers and others from Oregon to Colorado, and is conceded to be without a peer in influence in the field of journalism in Nevada. The combination is the strongest possible that could have been made. The effort of the new management will be to continue to please those representing the agricultural and stock interests of the sagebrush country. It is proposed to keep the stock news and the current news distinct and separate, yet all in one journal. It will be without a rival as an advertising medium, and as a family newspaper. It makes a paper which will be welcomed into families in all of the Western States and Territories.

The value theft at the depot Sunday evening is unfortunate. It was unfortunate for the woman who lost \$40; it is also unfortunate for Reno. Reno cannot afford to get the reputation of being a den of thieves, nor so much even as an illregulated police station. The haunts of vags and dead-beats whose line of march is on the railroad, are in the vicinity of the depot. Here they congregate upon the arrival of trains, and spoils are what they are after. By reason of Jersey, its location Reno is being more advertised than any other town in the State, and it is greatly to our interest that it be favorably advertised. No expense should be spared that the traveling public while passing through here be protected from all sneak thieves. There is no doubt but the present force is faithful, but if it be not large enough to protect the public and to bring culprits to justice, it should be increased.

In the death of Aaron A. Sargent the Pacific Coast loses one of i ts most prominent citizens. Mr. Sargent was U. S. Senator from 1873 to '79. In 1882 he was Envoy Extraordinary and Minister Pleni- Atlantic and Pacific Railway Compotentiary to Germany. After his resignation from this position he was offered the Russian Mission by President Arthur, but declined to accept. In 1884, when Leland Stanford was elected he was again a prominent candidate for U. S. Senator, and also last fall when George Hearst was named for this position. The Scotch yacht Thistle, about which so much anxiety has been expressed, arrived at New York about 4 o'clock this morning.

Important Land Decision.

WASHINGTON, August 15. The Secretary of the Interior to day revoked an order of withdrawal of indemnity lands for the benefit of the pany, and, in a long letter to the Com-missioner General of the Lund office, directs they may be restored to settle-ment under the preemption and home-stead laws. It is stated that between twenty-five and thirty million acres are involved in this decision in the case of the Atlantic and Pacific alone.

Riddleberger Returns to Jail. WINCHESTER, Va., August 16. The excitement over the imprison ment and subsequent rescue of Senator Riddleberger has subsided. Court adjourned on Friday until noon to-day, and this morning the Senator was returned to jail. The return to prison was voluntary upon Riddleberger's part. All is quiet. A motion was made in Court to-day to release him, which Judge Newman denied.

> CALIFORNIA ITEMS. Ira G. Hoitt Interviewed-

Hon. Ira G. Hoitt, Superintendent Public Instruction of California, passed through this morning on his way to Washington. He is one of California's representatives The of the American Legion of Honor to a convention to be held at the Capital on the 23d instant. In conversation with him at the depot a GAZETTE reporter learned that he is also going en official busin as in connection with the issuance of the new State text books. He goes to procure plates for the same, and other material. He thinks the State text book series adopted in California will eventually prove popular with the people. How is Governor Bartlett? asked the reporter. Mr. Hoitt replied: He is a very sick man. He attended a Board meeting, of which I am a member, last Monday week but was very feeble. His intimate friends say that he will resign as Governor unless he soon gets better. He is versation with him at the depot unless he soon gets better. He is very conscientious, said Mr. Hoitt, and thinks that he should not have and thinks that he should not have the salary while he cau render no service to the State, but should give way to someone else who is physi-cally able to do the work of the of-fice. In the event of his r signa-tion Lieutenaut Governor Waterman will succeed him.

Petty Larceny Newspaper Readers. The postal law makes it larceny to take a paper, and refuse to pay for it. A newspaper in Illinois recently brought suit against forty men who would not pay their subscriptions, and obtained judgment in each for full amount of the claim. Of these twenty-eight made affidavit that they owned no more property than the law allowed them, thus preventing attachments. They have note that they are the claim of the Section then under the decision of the Su-preme Court, were arrested for petty larceny and bound over in the sum of \$300 each. All but six gave bonds and six went to jail. It makes no difference to what part of the continent the paper goes, a bill sent to the postmaster, a Justice of the Peace or any United States officer, can be collected.

A Cutting Scrape.

A man named McLane was seriously cut in the breast this moruing in front of the Delta saloon,

Higher City, by Johnny Cheermo.
He is not expected to live.
LATER—The facts of the cutting scrape are as follows: Clemens abused McLane, who knocked him down; Clemens then plunged a knife into McLane's right breast. The wound is serious but not necces sarily fatal. McLane is a miner and employed in the Con. Cal. & Va. mine. Clemens recently ar-rived here from Arizona with an unsavory reputation. He is under

The "Weekly Gazette and "Stock-man" to be the Name of the New Paper in Reno-What the Management Proposes to Do.

To the patrons of Weekly Gazette and Stockman:—The WEEKLY GAZETTE is one of the oldest and best established papers between Salt Lake City and Sacramento. It has a circulation in the smaller towns, among ranchers and stockmen that probably is equalied but by few papers on the Pacific Coast. It gives more news for less money than any other sheet published in any of our Interior towns.

The Stockman has had an existfor one year. The success of the for one year. The success of the Stockman is somewhat phenominal in the history of journalism in this state. The demand for a stock journal is imperative by the stockmen of Nevada. Representing as they do \$20,000,000 worth of values, having the second, if not the first, industry in the State, they demand an organ to represent their interests. This they shall continue to have in the WEEKLY GAZETTE and STOCKMAN. B-lieving in union there is strength the union there is strength the union has been made; the WEEKLY GAZETTE and the Sagebrush Stockman will be merged into one large twelve paged paper, and be issued from the GAZETTE and be issued from the GAZETTE office from and after the 25th instant. For the present patrons receiving either the weekly Gazette or the Stockman will receive the two combined without additional cost for subscription. Advertisers will also pay the same rate as now. The combined paper will have a circulation of about 2500. The advertising rates are incomparably cheaper than any other paper of its cheaper than any other paper of its circulation to be found any where. As a newspaper, as a stock Journal, as an advertising medium it never can have a rival between the Utah

line and Sacramento. J. B. Bloor, who has been part owner in and business manager of the STOCKMAN, will have an interest in the GAZETTE and will be business manager of both the "DAILY GAZETTE and the WEEKLY GAZETTE and STOCK-MAN." Beautiful Specimen of Wheat

Mr. C. T. Bender, of the First National Bank, came in last night from Lovelock and brought with him as beautiful a specimen in the shape of a small sheaf of wheat and oats that has been seen for many a day. The oats stool six and a half feet high and attracted the attention of every "old-timer" at the Depot as well as that of many inquisitive strangers passing on to 'Frisco. In answer to a GAZETTE reporter Mr. Bender said that it was grown on the reach of Mr. reporter Mr. Bender said that it was grown on the ranch of Mr. J. H. Thels about three miles from Lovelock; that the land on which it had been cultivated yields 60 bushels of wheat and 80 bushels of oats to the acre. The richness of the soil is due to the overflows of the sink of the Humboldt in the centuries gone by. RENO, NEV., June 78, 1887.

T. K. HYMERS, ESQ., CHAIRMAN BOARD OF COUNTY COMMISSIONERS—DEAR SIR:
In accordance with your request I have made examinations of three samples of water furnished by you, with special reference to such impurities as would render it unfit for domestic use, and beg leave to present the following report:

Sample No. I was taken from. the river about ten miles above town, at the point where the Highland ditch takes it supply; sample No. 2 was taken from the main reservoir, four feet from the surface, near where the water used in the town is taken; sample No. 3 was taken from the Highland ditch just before it empties into the main reservoir. The following is a tabulated statement of the results of the tests made:

(In parts per million.)

(In parts per million.)

SAMPLES. [No. 1]No. 2]No. 8 SAMPLES. | No. 1 | No. 2 | No. 8

The ammonia found indicates the proportion of contamination from animal sources, such as sewage, decomposing animal matter, etc., and in Nos. I and 3 is in as smal proportion as can be expected in a stream which flows through as many towns as the Truckee; while in No. 2 it is in three times the quantity as in the others, and above the limit of safety—dixed by most authorities at .68 to .12 parts free ammonia, and .18 to .20 parts albumenoid ammonia per million of water.

The second table shows the results obtained from careful evaporation of the water; drying and ignition of the residue in platinum crucibles, and proves that the water of the Truckee is as free from deleterious matters, prejudicial to health, as that supplied to almost any city of the Union.

by weight, of caustic soda to one thousand parts of distilled water."

These various results show:
First—That the water supplied to the town through the main reservoir is not sufficiently pure to be used for domestic purposes with safety.
Secondly—That the water in the river is reasonably pure and wholesome, and Thirdly—That the water supplied to the town receives the greater part of its impurities in the main reservoir and its approaches.

puriles in the main reservoir and its approaches.

As applicable to the sawdust question, I quote the following extract from an article on water by Professor S. P. Nadtler, Ph. D., Professor of Chemistry in the University of Pennsylvania, etc., etc.: "Organic matter may be derived from a vegetable source, such as leaf mould, and the decomposition products of wood, in which case it is practically harmless, or it may be derived from animal sources, in which case it almost always causes a serious impurity."

HUNTER CREEKS

RENO, Nevada, July 14, 1887. RENO AND HUNTER CREEK WATER CO. GENTLEMEN:- A few days ago, at the r quest of, and in company with Mr. Jame Mayberry, of your corporation, I visited Hunter Creek and obtained a sample of water from that stream, which I have carefully analyzed with results as stated

I find the water to be soft, clear and vegetable origin, and 4.403 grains of minthe river would be shown in the table under the head of "organic solids," but the results obtained show that the amount of such matter is very small; much less, indeed, than is contained in many natural springs, some of which carry five grains or more of organic matter to the galion just where they bubble from the earth.

The comparatively large amount of total solids in sample No. 3 is accounted for by the fact that the sample was taken from the ditet her second day the water was running in it, after it had been empty for a few days, the water naturally being turbid from fine par-leles of silt taken up from the bed of the ditch.

The samples all show an alkaline reaction, but so slight as to be immaterial; being less than one-tenth of the limit or safety, placed at "an alkaline reaction, but so slight as to be immaterial; being less than one-tenth of the limit or safety, placed at "an alkaline reaction, but so slight as to be immaterial; being less than one-tenth of the limit or safety, placed at "an alkaline reaction, but so slight as to be immaterial; being less than one-tenth of the limit or safety, placed at "an alkaline reaction, but so slight as to be immaterial; being less than one-tenth of the limit or safety, placed at "an alkaline reaction, but so slight as to be immaterial; being less than one-tenth of the limit or safety, placed at "an alkaline reaction, but so slight as to be immaterial; being less than one-tenth of the limit or safety.

Who Wrote Them and What In-

The greatest poem of the war was written at Washington, by Julia Ward Howe, under the title of "The Battle Hymn of the Republic." It is sung to the tune of "John Brown," and commences, "Mine eyes have seen the glory of the coming of the Lord." Mrs. Howe wrote it early one morning and it is said she penned the lines with her eyes shut. The night before she had been out riding in the country near Washington and her party had narrowly escaped being captured by a troop of Confederates. As they came into Washington thay sang "John Brown's Body," and the tune kept ringing in Mrs. Howe's head all night. When she awoke before daylight she began to make verses to it, and in the fear that she would forget them she wrote them off, according to a habit she had formed to save her eyes, without looking at the paper. Mrs. Howe is still living, and she ranks among the leaders of the woman's rights movement.

Speaking of "John Brown's Body."

ment.

ment.

Speaking of "John Brown's Body," the tune itself is an old Methodist camp-meeting tune, and the words were adapted to it by a glee club in Boston in 1861. It was first public hed at Charlestown, Mass. Capt. James Greenleaf, an organist of the Harvard Church, set the notes for music, and a Massachusetts regiment made them first noted by singing them at Fort Warren in 1861.

The author of "Maryland My Maryland," lives at Washington, and you may see him in the press galleries of Congress almost any day durthe session. He writes gossipy letletters to the Augusta Chronicle. His name is James R. Randall, and he is a modest looking, dark complexioned man of 40. He must have been very young when he wrote that

"America" was written by the
Rev. Samuel Francis Smith in 1832,

"President's March." It was always sung when Washington came into the theatre, and one of the objects of its writing was the cultivation of a patriotic spirit among the people of the New Republic. It was first put to music by a German music teacher at Philadelphia named Roth.

"The Star Spangled Banner" was written by Francis Scott Key while watching the bombardment of Fort McHenry, in 1814. He was in a small vessel among the British ships, and he saw his countrymen win the victory. All through the fight he watched anxiously to see if the flag was still standing, looking for it at night by the flash of the bombshells, and anxiously waiting the dawning. The song was printed in the Baltimore American eight days after the battle, under the title of "The Defense of Fort McHenry."

Many people will be surprised to

Defense of Fort McHenry."

Many people will be surprised to learn that "Yankee Doodle" is not of American Origin. Even the words date back beyond the days of Queen Anne, and the tune is still older. In the wars of the Roundheads' says Commodore Preble, in his book on the flag of the United States, "Yankee Doodle," or "Nankee Doodle," was applied in derision to Oliver Cromwell, and Professor Rimbault, a prominent musician of London, wrote a song directed at Cromwell under this title. The jingle of these two songs is about the same, and the words are not much different. Dr. Shuchberg first introduced the song into this country in 1775, and this was also in contempt of the ragged colonial soldiers. At Concord and Lexington the British when advancing to fight, bravely played "God Save the King," and after they were defeated the Yankees, as they watched their retreat, struck up "Yankee Doodle."

One sometimes hears strange modes of reasoning during that favorite pastime of some women, shopping. "This little scent-bag is not quite perfect," said one at the Woman's Exchange, as she called the attention of a girl in waiting to an article that lay on a table. "Now if it were for myself, I should not care at all, but I would like to buy it to give as a present to a little niece, and give as a present to a little niece, and she's so observing that she'd notice any defect in it in a moment. Couldn't you let me have it for half-rice?"
